PRODUCTS

At GenOasis, our products are the foundation of innovation and sustainability. We offer a comprehensive range of high-performance solutions across water treatment, industrial applications, and laboratory environments.

Explore our offerings and discover how GenOasis products can empower your operations.

Pressure Vessels & Tanks
(RO pressure vessels,
FRP media tanks)

Filtration Systems
(Cartridge filters, filter housings, bag
filters, self-cleaning filters, strainers)

**RO & Ultrafiltration
Membranes / Nano membranes**

Water Pumps
(Centrifugal, Submersible, Screw,
Air operated, swimming pool)

Water Treatment Chemicals
(Antiscalants, RO membrane cleaners,
biocides, polymers, generic chemicals)

**Sand Media/ Activated Carbon/
Ion Exchange Resins/Activated
Filter Media**

Disinfection Systems
(UV sterilizers, ozone generators)

**Valves, Couplings & Fittings for
RO & Water Treatment Plants**

Diffuser & Aeration System
(Disc diffuser, Tubular diffusers,
Coarse bubble diffusers)

Biological Media
(MBBR media, Bio block media,
Bio chip media, SAFF media)

Settling & Dewatering Solutions
(Tube settler media,
dewatering bags)

Instrumentation & Lab Equipment
(Measurement devices, testing
kits, lab apparatus)

Advanced Water Solutions You Can Trust.
